14.30 - 15.30	<p>Judges Panel</p> <p>US/UK/Continental Europe - E-Disclosure/Discovery Similarities and Differences</p> <p>The judges on this panel have been chosen for the diverse nature of their courts and jurisdictions. In this discussion, Judge Jan Podaný represents the "home team", talking about the challenges facing courts in the Czech Republic. Judge Dory Reiling from Amsterdam will tell of her plans to run several courts fully electronically by 2015. Judge Simon Brown and Judge John Tanzer from the UK will talk about pending developments in the UK and about the need to involve judges in any plans to move towards electronic case management in UK courts. US Magistrate Judge Andrew Peck is well known for his management of electronic discovery, including US discovery demands made abroad. He also has experience of working in US courts with an electronic filing system. Between them, these judges will give delegates plenty to think about.</p> <p>Moderator: Chris Dale, E-Disclosure Information Project</p> <p>Panelists: Hon. Andrew Peck, Judge, US His Hon. Simon Brown QC, Judge, UK Dory Reiling, Judge, Netherlands His Hon. John Tanzer, Judge, UK Mgr. Baron, Drinker Biddle Jeane Thomas, Crowell & Moring Tracy Drynan, Tritura Ann Snyder, IGI Jana Pattynova, Pierstone</p>	<p>Cellebrite Demo Session</p> <p>Extracting data from mobile devices has come a long way from the early days in which it required highly skilled people utilizing very sophisticated machinery and tools. Law enforcement professionals, around the world, knows that already and extends the use of tools and techniques beyond the forensics high-tech lab. Where it comes to the private sector, the growing awareness of importance and criticality of mobile ESI is bringing the mobile devices up-to-par with computers and servers as source for data to be discovered. This demo session will provide a glimpse of the current techniques and tools for data collection and searching from mobile devices and how it may fit into the bigger data analysis or collecting that are part of any modern investigation or discovery respectively.</p> <p>Presenter: Yuval Ben Moshe</p>
15.30 - 16.00	COFFEE BREAK
